Languages

English – Full professional working proficiency

Hobbies & Interests

- Drone flying
- Photography
- Travelling
- Solving puzzles

Summary

I am a Front-End Developer, living in Skopje, Macedonia, a place that is becoming a fertile ground for the Tech Industry in recent years. I started out as a photographer and a drone pilot and I found myself in need of a webpage in order to put myself and my brand name out there. Since I've always been into computers and technology, getting into coding seemed like a natural choice. Now I've made a full switch to front end development, where I can use my organization skills and eye for detail to write clean, elegant code.
